

A close-up photograph of a person's legs and feet. Two hands are shown massaging the lower leg and ankle area. The person's feet are bare and appear to be in a relaxed state. The background is plain white.

BIONICARE

PEDI PRO

A new dimension in foot care

BIONICARE

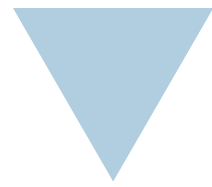

BIONICARE is a specialized brand with a comprehensive range of effective products for professional foot care. We have created our own Research Centre where the best technologists and podiatrists create and test the developed cosmetic formulas. Thanks to this we can be sure that all Bionicare products are safe and effective. We create product lines based on the most urgent needs of our customers, such as: deep keratinization and calluses, dry feet skin, hyperhidrosis or mycosis. Bionicare products are dedicated to treatments performed in specialist surgeries, but we also have a range dedicated to home care - Home Therapy to maintain the effect of a professional treatment.

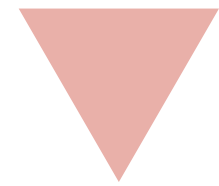

brand's goals

WHAT MAKES BIONICARE DIFFERENT?

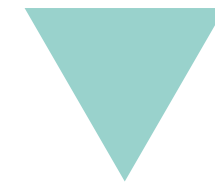

IINNOVATIVE FORMULATIONS

Innovative and effective formulations, original technologies, experienced podiatrists supporting brand development.

HIGH EFFECTIVENESS

A team developing products with a passion for creating and discovering new care possibilities

EFFICIENCY

The high concentration of active ingredients allows for less consumption of the products in order to obtain the desired effect

PEDI PRO

PRODUCTS PRESENTATION

FAST CRACKED SKIN EXFOLIATING GEL 150 ml

An intensive gel for calluses intended for professional pedicure treatment. The gel formula effectively dissolves dead epidermis in a very short time. High effectiveness of the product confirmed by podiatrists.

APPLICATION:

Apply on the chosen place and wait 5 minutes. Depending on the level of keratinization you can leave it on the skin longer and then carefully remove keratinized epidermis.

INGREDIENTS:

Aqua, Glycerin, Polysorbate 20, Sodium Hydroxide, Polyacrylate Crosspolymer-6, Lactic Acid, Calendula Officinalis Extract, Melaleuca Alternifolia Leaf Oil, Rosmarinus Officinalis Leaf Oil, Phenoxyethanol, Ethylhexylglycerin, Isoeugenol*, Limonene*, Linalool*

FOOT SOFTENING FOAM 250 ml

A professional foam formulation to soften calluses before a specialist foot care treatment. It accelerates and facilitates the work of removing dead skin. It has antiseptic properties. High effectiveness of the product confirmed by podiatrists.

APPLICATION:

Apply two pumps of the foam to the surface of your feet, especially to treatment areas. Leave for 3-5 minutes and then thoroughly remove all keratinized epidermis. Rinse thoroughly with warm water.

INGREDIENTS:

Aqua, Urea, Caprylyl/Capryl Glucoside, Sodium Coco- Sulfate, Lactic Acid, Cocamidopropyl Betaine, Calendula Officinalis Extract, Chlorhexidine Digluconate, Sodium Hydroxide, Ethylhexylglycerin, Phenoxyethanol

ANTISEPTIC REFRESHING SPRAY 250 ml

It has an antibacterial effect and protects feet from fungal infections. The spray is enriched with natural tea tree oil for antibacterial action and peppermint oil to relax your feet and give them a cooling sensation.

Highly effective, confirmed by podiatrists.

APPLICATION:

Spray onto previously dried feet from a distance of approximately 10 cm. NOTE: product for external use. Use only according to the instructions. Avoid contact with eyes and mucous membranes. Discontinue use if irritation, burning, itching, redness occurs. Protect against light and heat. Keep out of reach of children. The product is intended for professional use.

INGREDIENTS:

Alcohol Denat., Aqua, Isopropyl Alcohol, Glycerin, Panthenol, Citronellyl Methylcrotonate, Melaleuca Alternifolia Leaf Oil, Mentha Piperita Oil, Limonene*, Isoeugenol*, Linalool*

ANTISEPTIC FOOT BATH SALT 900 g

Foot bath salt with onion seed oil has antiseptic properties, perfectly softens calloused epidermis, corns, tylomas and calluses, preparing the skin for podiatric treatment. The salt has been enriched with pine oil, which has a refreshing and antiseptic effect. High effectiveness of the preparation has been confirmed by podiatrists. .

APPLICATION:

Dissolve a suitable amount - about 20 g of salt in 3 liters of warm water and soak feet for 5-10 minutes. Then thoroughly dry and proceed to the next steps of the treatment.

INGREDIENTS:

Sodium Chloride, Sodium Bicarbonate, Helianthus Annus Seed Oil, Allium Ceba Bulb Oil, Cupressus Sempervirens Leaf Oil, Cinnamomum Camphora Bark Oil, Persea Gratissima Oil, Pinus Sylvestris Leaf Oil, Diethylhexyl Syringylidenemalonate, Caprylic/Capric Triglyceride, Limonene, Linalool

ANTISEPTIC SALT AND SUGAR SCRUB 500 g

A salt and sugar foot scrub that effectively exfoliates and intensively softens calloused epidermis. Thanks to valuable oil ingredients it accelerates regeneration of damaged skin and improves its elasticity. The ingredients contained in the scrub have antiviral, antifungal and antibacterial properties. High effectiveness of the product confirmed by podiatrists.

APPLICATION:

Apply an appropriate amount of the scrub on your hands and massage your feet. Leave the scrub for 3-5 minutes and rinse thoroughly with warm water. Then dry your feet and proceed to the next steps of the treatment.
